The Ministry of Foreign Affairs and International Cooperation (MAECI) offers grants in favor of foreign citizens not residing in Italy and Italian citizens living abroad (IRE) for the academic year 2018-2019 in order to foster international cultural, scientific and technological cooperation, to promote Italian language and culture and to support Italy's economic system in the world (According to Law 288/55 and its subsequent changes and additions).

The Italian Higher Education System includes:

- Universities
- The Higher Education for Fine Arts, Music and Dance sector
- Higher Technical Institutes

Universities are also divided into private and publicly funded institutions. The quality of the education, however, is comparably high at all institutions of higher education.

International students can apply to Italian Universities only if they have an educational qualification that allows them to enroll. This qualification of secondary education has to be awarded after a study period of at least 12 years. If the educational qualification has been awarded in less than 12 years, it has to be accompanied by the academic certification of the examinations taken or a post-secondary title to compensate for any missing years of secondary education
